## WEBSITE DEVELOPMENT

### Top 10 reasons why you should have a website.

1. **Increase your sales:** by publicizing your business, service or products to millions of potential customers.
2. **Save you a lot of money in communication and administration costs:** Update your website with latest news which is much easier and its price is cheaper than printed media.
3. **Link your website with other advertising campaigns,** therefore creating effective brand awareness.
4. **Advertise or publicize your business on the internet** 24 hours a day, 365 days per year.
5. **An extra outlet for taking orders for your business**
6. **Easier and cheaper to change content than print media.** CMS allows any section of your website updated whenever and as often as you want
7. **Websites make it easier for customers to do business with you,** both at global and local extent.
8. **Compete with other companies in your market area**
9. **Use websites to network** with other companies and build better business relationship locally and internationally.

### Select TANNER as your reliable Web Development Service provider and partner !

TANNER delivers:

**Personalization:** We consider your brand, products and audience when designing a presentation that is unique to your company. We listen to you to create a customized website, not just a "me too" product.

**User-friendliness:** We will assure your website easy to use, and accessible to everyone including vision and hearing impaired clients. All possibilities will be considered to let your clients view your site on any web device from computers to smart phones.

**Appeal & Function:** Photoshop, Tablets, Adobe Illustrator, HTML, Joomla, Web-Edition, together with the latest and cutting-edge technologies are used to make your site visually appealing and fully functional.

**Multi-languages:** Highly skilled, professional editors with over 25 years of experience in Translation Management Service offer top-level translation management with accuracy, comprehension, as well format and layout uniformity in accordance with source materials.

## WEBSITE DEVELOPMENT

### Our Procedure

#### STEP 1: PRE-ASSESSMENT

- \* You receive a questionnaire relating to your brand, products and target audience.
- \* We meet with you to discuss the feedback of the questionnaire.

#### STEP 2: ANALYSIS

- \* We thoroughly analyze your requirements.
- \* We build 3 prototype design-layouts for your website.

#### STEP 3: IMPLEMENTATION

- \* We structure and build your website on the layout of your choice.
- \* We test your website on the most popular web browsers (Internet Explorer, Firefox, Google Chrome, Safari and Opera).
- \* We will fix any problem or bugs.

#### STEP 4: DELIVERY

- \* We retest your website at your work site
- \* We deliver the website to you.
- \* We train your web-administrator
